Catalogue

The SafetyLink FastFit Davit is a Temporary Anchor suitable for use as part of a personal fall protection system. The FastFit Davit is suitable for having one user suspended from the shuttle and a second user connected to either of the secondary attachment points (Mast or Base).

### FALL PROTECTION RATING

The FastFit Davit is rated for one user with a maximum weight of 150kg suspended from the shuttle and one user connected to either of the secondary attachment points.

### MATERIALS HANDLING

The Davit may be used to lift materials. Davits used for material lifting purposes shall not be used for supporting a user, *see manual for maximum loads allowed on Davit Booms.*

### STANDARDS

The FastFit Davit Temporary Anchor System is compliant with AS/NZS 5532 and EN795.

All safety procedures must comply in accordance with the current safety code(s) of practice(s) for working at heights. Ensure safety at all times during and after installation by using an appropriate height safety system.

Boom 1000mm

Mast 1600mm
